SUMMARY

Computer Engineering student with hands-on experience in full-stack development, cloud computing, and software engineering. Skilled in Java, React.js, PHP, MySQL, and AWS. Experienced in API integration, Agile methodologies, debugging, and version control (Git). Passionate blogger, hackathon participant, and open-source contributor with strong problem-solving and analytical skills.

EDUCATION

B.Tech in Computer Engineering

2022 – 2026

Mumbai University, A.P. Shah Institute of Technology

CGPA: 7.72 (till Sem 7)

Class 12th (HSC)

2022

Lakshya Prep High School and Jr. College, Thane — 73.4%

Class 10th (SSC)

2020

Sri Ma Vidyalaya CBSE School, Thane — 80.6%

EXPERIENCE

Java Development Intern

Jun 2025 – Jul 2025

Cognifyz Technologies (Remote)

- Contributed to the design and implementation of scalable Java applications, applying JDBC, SQL, and Object-Oriented Programming (OOP) concepts. Assisted in developing robust modules and writing efficient, unit-tested code to support enterprise projects.

Web Development Intern

Aug 2025 – Sep 2025

CodeClause Pvt. Ltd. (Remote)

- Gained hands-on experience in software and web development within a remote setup. Worked on enhancing application features and participated in end-to-end project workflows.

PROJECTS

SmartDerm- Inborn Talent Prediction (Group)

React, CNN, OpenCV, Python, MySQL

Built an automated fingerprint analysis system using CNNs ($\geq 90\%$ accuracy) to classify patterns and extract minutiae, core/delta, and ridge counts. Developed a secure Django web app and personalized PDF reports for talent prediction and career guidance with Brain Games.

BuildPro – GitHub Code Analyzer (Solo)

React.js, Node.js, GitHub API, OpenAI

Designed and developed a full-stack platform generating AI-driven project ideas, tracking milestones/commits, and auto-issuing certificates. Integrated GitHub + Firebase Auth, streamlining project setup and boosting developer productivity by 25%.

Interview-Nest – PHP Dev Environment (Group-SemV)

React, PHP, MySQL, XAMPP, WebRTC, Agile

Implemented a web-based interview platform featuring real-time video, integrated code compiler, collaborative whiteboard, and quiz modules, enhancing remote interview efficiency by 30% and reducing candidate assessment time by 20%.

SKILLS

Programming Languages: Java, Python, JavaScript (ES6+), PHP, SQL, HTML, CSS, Angular

Frameworks & Libraries: React.js, Node.js, Hibernate, JavaFX, OpenCV, RESTful APIs, Agile (Scrum)

Databases: MySQL, MongoDB, PostgreSQL

Cloud & DevOps: AWS (EC2, S3, Elastic Beanstalk), GitHub Actions

Tools & Platforms: Git, Linux, XAMPP, VS Code, Canva

Core CS: Data Structures Algorithms, Operating Systems, DBMS, Computer Networks

Other Technical: OpenAI APIs, Gemini, API Integration

Soft Skills: Leadership, Collaboration, Communication, Time Management, Problem Solving

CERTIFICATIONS

- AWS Academy Graduate – Cloud Foundations
- Oracle Java Programming Certified
- Fortinet Product Awareness Certified
- Juniper JNCIA-Cloud
- AWS Academy Graduate – Data Engineering
- AWS Training – Job Roles in Cloud

VOLUNTEERING

GirlScript Summer of Code (2025) – Contributing to open-source projects.

NSS Volunteer, APSIT (2022 – 2024) – Organized social drives and awareness campaigns.
